RESUSCITATION TROLLEY

The Resuscitation Trolley is an easy and useful product which permits to have a complete portable set of instruments for the first support for baby with respiratory distress. It is suitable both for delivery and post-delivery rooms, special care baby, neonatal intensive care units and everywhere it is needed. The Trolley (Code Number 13101A70) consists of a stand with 4 Wheels, an IV Pole, a basket for containing consumable material, handle and mounting bracket for the devices.

It's designed to carry the following devices in a safe and effective way:

- Baby Start Resuscitator (Code Number 7236)
- NEO₂ Air/O₂ Blender (Code Number 12409A70)
- Wetty Humidifier (Code Number 8049)
- Air cylinder 3l (Code Number 7436)
- Oxygen cylinder 3l (Code Number 7753)

The Trolley can be equipped with different available combinations of products:

- NEO₂ Air/O₂ Blender + Baby Start + Wetty: Resuscitation with heated and humidified gas
- NEO₂ Air/O₂ Blender + Baby Start: Resuscitation without heated and humidified gas
- NEO₂ Air/O₂ Blender + Wetty + Nasal Cannula: High Flow System Oxygen Therapy

Resuscitation Trolley

Resuscitation Trolley

(Code Number 13101A70)

Dimensions: 60x58x195 cm (WxDxH)

Weight: 7.5 Kg
24 Kg (complete configuration)

Wheels:

Ø5 cm

Basket Dimensions:

40x30x22 cm (WxDxH)

Baby Start Resuscitator (Code Number 7236)

Operative Modes: NIV with mask / Tracheal with endotracheal tube
Ventilation Modes: CPAP Countinuous positive airway pressure
IPPV Intermittent positive pressure ventilation

Parameters

Flow: Air/O₂ (0-15 l/min)

PEEP: 0-70 cm H₂O

PIP: 8-80 cm H₂O

Max Pressure: 8-80 cm H₂O

Monitoring: Manometer

Reading Range (PIP): -20 - 80 cm H₂O

Accuracy: +/- 2%

Sustained Inflation:

Alarm: Single sound after 5 second
Double sound after 10 second
Triple sound after 15 second

NEO₂ Air/O₂ Blender (Code Number 12409A70)

Oxygen Concentration Range: 21 - 100%

Number of Ports: 2

Left Flowmeter Range: 3-15 l/min (1-15 l/min if bleed is open)

Right Flowmeter Range: 0 - 3.5 l/min

Accuracy: ±3% full scale

Wetty Humidifier (Code Number 8049)

Modes:

Automatic: Invasive / Non Invasive

Manual: Temperature Setting / Humidity Setting

Display: 2 display 7 segment

Settable parameters:

Y-piece temperature: 23- 38°C

Humidity level: 0-5

Modality: Automatic o Manual

Parameter Monitoring:

Y-piece temperature: 10-50°C

Alarms limits:

Set Parameters: Lower limit Upper limit

Y-piece temperature: T set -1°C - T set +1°C

Max temperature: 41°C

High Flow Nasal Cannula

Male connector for dry mixed gas

AEC030010 Pediatric

AEC030011 Infant

AEC030012 Neonate

Female connector for humidified mixed gas

AEC030013 Pediatric

AEC030014 Infant

AEC030015 Neonate
